Medicinal Research Reviews

Contents, Volume 12, 1992

Issue 1, January

Fifteen Years of Research of Bioactive Alkaloids
Arnold Brossi 1

Inhibition of HIV-1 Reverse Transcriptase and Virus Replication by a Non-Nucleoside Dipyridodiazepinone BI-RG-587 (Nevirapine)
Mark T. Skoog, Karl D. Hargrave, John J. Miglietta, Elizabeth B. Kopp, and Vincent J. Merluzzi 27

Patents in Biotechnology
Albrecht Hueni 41

Heterotrimeric GTP-Binding Proteins: An Expanding Family of Signal Transducers
Allen M. Spiegel 55

Issue 2, March

Potassium Channel Activator Drugs: Mechanism of Action, Pharmacological Properties, and Therapeutic Potential
Susan D. Longman and Thomas C. Hamilton 73

The Discovery of DuP 753, a Potent, Orally Active Nonpeptide Angiotensin II Receptor Antagonist
John V. Duncia, David J. Carini, Andrew T. Chiu, Alexander L. Johnson, William A. Price, Pancras C. Wong, Ruth R. Wexler, and Pieter B. M. W. M. Timmermans 149

Issue 3, May

Editor's Introduction 193

Remembering Heinrich Wieland (1877–1957)
Portrait of an Organic Chemist and Founder of Modern Biochemistry
Bernhard Witkop 195

Peptides in Health and Disease: Retrospection and Outlook
Bernhard Witkop 275

Issue 4, July

The Fourth Paul Ehrlich Lecture
Imaging in Theory and Praxis: From Paul Ehrlich's Receptors to Modern Roentgen Analysis
Isabella L. Karle 297

Protein Targets for Structure-Based Drug Design
Malcolm D. Walkinshaw 317

Human Pharmacology of a Low-Molecular-Weight Heparin (Alfa-LMWH): An Update
A. G. Dettori and M. Babbini 373

Physiology and Pharmacology of Endothelins
Tomah Masaki, Masashi Yanagisawa, and Katsutoshi Goto 391

Issue 5, September

Adenosine A_1 and A_2 Receptors: Structure–Function Relationships
Philip J. M. van Galen, Gary L. Stiles, George Michaels, and Kenneth A. Jacobson 423

Kala-Azar: Current Status of Experimental Chemotherapy
J. C. Katiyar, Anuradha, and Satyavan Sharma 473

Pharmacological Basis of the Therapeutic Effect of (−)Deprenyl in Age-Related Neurological Diseases
Jozsef Knoll 505

Opioid Agonists and Antagonists: An Evaluation of Their Peripheral Actions in Inflammation
Andrew Barber and Rudolf Gottschlich 525

Errata 563

Issue 6, November

Letter from the Editor 567

Modulation of Potassium Channels by Organic Molecules
Karnail S. Atwal 569

VOLUME CONTENTS 657

GABA Agonists and Antagonists
David I. B. Kerr and Jennifer Ong 593

The Role of Cytokines in Muscle Wasting: Its Relation with Cancer Cachexia
Josep M. Argilés, Cèlia Garcia-Martínez, Marta Llovera, and Francisco J. López-Soriano 637

Volume Contents 653

Author Index to Volume 12 659
